

Abner Souza

Full Stack Software Engineer

📍 Florianópolis, Brazil abnersouza@outlook.com

Profile

A passionate full-stack developer that has successfully completed commercial and solo projects in C#, JavaScript, Typescript, Laravel, .Net, Angular, React, Node.js, PWA, AWS, and Azure Cloud Services and many other technologies. Able to work as part of a team to complete large projects or work on solo satellite projects with minimum supervision.

Possessing a good team spirit, focused on deadlines, and ensuring a high standard of quality. Looking for an interesting role that allows me to grow even more as an engineer.

I am used to working with Git and Scrum life-cycle development. I have been working many years Remote from Brazil for companies in Ireland and Singapore.
